How to Use This Tracker — Locus by LexRoot

Go to the 'Application Tracker' sheet. For every firm you apply to, fill in one row.

Start with columns B (Firm Name), C (City), D (Practice Area), E (Contact Person), and F (Email).

When you send a cold email, enter the date in column G. Update column I (Status) to 'Cold Email Sent'.

After 7–10 working days with no reply, send a follow-up and log the date in column H.

Use the dropdown in column I to track every stage: Acknowledged → Under Review → Offer Received → Internship Confirmed → Completed.

Once an offer is confirmed, fill in columns J & K (Start and End dates), L (NOC required?), and N (Offer Letter received?).

After completing the internship, fill in column O (Certificate received?), P (Stipend), Q (Rating 1–5), and R (Supervisor Name).

Check the 'Dashboard' sheet at any time to see summary stats: total applications, conversion rate, average rating.

Sort column I by status to quickly see all 'Follow-Up Pending' or 'Under Review' rows.

Use column S (Notes) to log the next action needed for each firm — e.g., 'Follow up on 5 April' or 'Submit NOC by Monday'.

Download and save a fresh copy for each semester. Rename the file by year for easy reference.
